

We got all of our 7 scheduled races in for Series 2 with an average between 6 & 7 boats participating in every race from a fleet of 8, so great participation all summer. And close racing.

DNS and DNF races were scored as the rounded average number of participating boats + 1. For a more detailed summary see the breakdowns below. We had enough races to enable a throw-out, which I've shown in yellow hi-lite.

Congratulations Jerry and Steadfast crew!

-Hugh Liebner
